CHESTNUT

Mason's Mark **European Limestone** profile offers a hand-split face and is laid down with a mortar joint. A wide variety of sizes are offered in the pattern and is one of our largest products with the exception of the Hackett. This stone is easily blended with the European Stack Stone for a nice appearance as well.

BLENDED STYLES

Mason's Mark Stone Veneer styles can also be blended to create other beautiful effects and designs. Our European Stack Stone can be blended with our Limestone for a beautiful jointed design (below) and to the right, this customer utilized our Dry Stack Ledge Stone together with Fieldstone to create a great Southern Ledge Stone look. What kind of pattern can you create? Use your imagination to create a personalized blend of stone on your next project.

With cleaner lines than our traditional dry stack, Mason's Mark **European Stack Stone** also has a hand split face and a more textured appearance.. The stones are slightly larger and longer and can give a more contemporary look than other dry stacked stone. Also looks great with a mortar joint.
