Blended styles

Mason's Mark Stone Veneer styles can also be blended to create other beautiful effects and designs. Our European Stack Stone can be blended with our Limestone for a beautiful jointed design (below) and to the right, this customer utilized our Dry Stack Ledge Stone together with Fieldstone to create a great Southern Ledge Stone look. What kind of pattern can you create? Use your imagination to create a personalized blend of stone on your next project.

CUSTOM Jobs & SPECIAL ORDERS

No one in the industry does custom better than Mason's Mark Stone Veneer. If you are looking for that something special and just can not find it anywhere else then we may just be able to create it for you. From special order stone colors to match your favorite sports teams to color matching an existing stone on your home; we are your one stop shop for all your stone veneer needs. If you are interested in something unique, all you need to do is ask your Mason's Mark Stone Veneer sales representative.

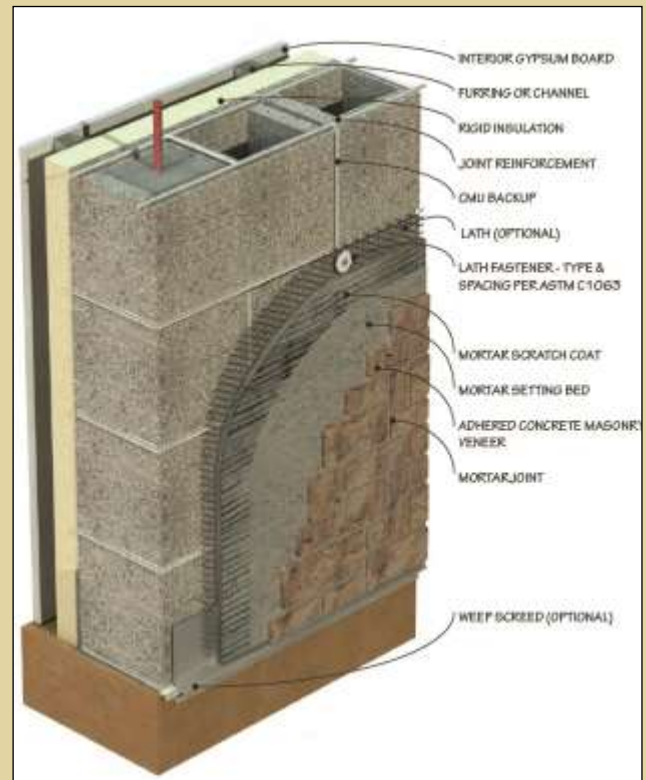

** Special orders require payment in advance and in some cases may be subject to an additional custom order fee.

STONE VENEER AND A TRADITIONAL MORTAR-ON Installation

Traditional Mortar-on installation over a double layer vapor barrier, expanded metal lath and mortar scratch coat. This is the most common method of indoor / outdoor installation over any non-masonry type material.

Traditional mortar-on installation over any unpainted or un-sealed clean masonry surface. (metal lath and scratch coat are optional). This is the most common method of indoor / outdoor installation over a masonry material such as natural stone, brick, stucco, block and poured cement.

STONE VENEER and a Mort ar -LESS Installation

Any of our stone styles can easily be installed anywhere with just a caulking gun with our SRW Vertical Instant Lock. It can save valuable time by instantly locking your stone veneer in place without any sag or slip. You can install your stone directly to a variety of materials such as painted surfaces, drywall, plaster, wood, brick, block, concrete board and even painted or unpainted metal.

Our Country Ledge Quick-Fit Stone Veneer is specifically designed to be 100% mortar-less and can easily be installed with screws and / or adhesive over many types of surfaces including wood frame and masonry.

100% Mortar-Less Stone Veneer System

A close-up photograph of a stone veneer wall. The wall is composed of irregular, light-colored stones with dark grey mortar. In the foreground, there are several pink flowers with yellow centers, likely Impatiens, growing from a bed of small, light-colored pebbles. The flowers are in various stages of bloom, with some fully open and others as buds. The background is a continuation of the stone wall.
